

# Transcend 3 miniCPAP™

## Product Data Sheet

### Product Overview

*The new benchmark from the inventors of the original miniCPAP.*

Transcend 3 miniCPAP is the perfect travel-size companion to your at-home CPAP machine. Small as a soda can, quiet as a whisper, and ultra-lightweight, Transcend 3 slips easily into your briefcase, purse, carry-on or backpack so you can sleep comfortably wherever life takes you. With the best price, most power options, free travel accessories, and the only extended warranty in the category, the inventors of the world's first travel-size CPAP are changing the game once again with Transcend 3 miniCPAP. Comfortable CPAP therapy at the half the size of traditional devices. Try Transcend 3 miniCPAP risk-free for 30 days.

### Product Features

*Why Transcend 3 miniCPAP?*

#### CPAP Therapy Designed for Travelers

Portable. Durable. Reliable. Transcend 3 miniCPAP was specifically designed to provide CPAP users with an at-home sleep experience while travelling away from home. Transcend 3 packs all the latest sleep therapy technology you need and expect into a travel-size device that's small enough to easily slip into your briefcase, purse, carry-on or backpack and rugged enough to withstand the knocks and bumps of life on the road. Plus, it's FAA-approved, so you can turn those long flights into hours of restful sleep.

#### Compatible with any CPAP Mask and any CPAP Hose

Finding a mask you like can be tricky. In fact, being stuck with an uncomfortable mask is one of the top reasons that individuals with sleep apnea don't use their CPAP machines. Transcend 3 miniCPAP eliminates that issue entirely. Unlike some travel CPAPs, Transcend 3 can be used with ANY CPAP mask and ANY CPAP hose with a standard 22mm connection. So, keep on using the mask you like (and have come to rely on) and avoid the hassle of trying to adjust to a new mask that just doesn't fit.

#### Unplug with Power Options to Sleep Anywhere

Transcend 3 miniCPAP has more power options than any other CPAP on the market. AC (wall) power for when you're at home, at your cabin or at a hotel. DC power adaptors for when you're in your RV, on your boat, or in your truck. Portable battery options for camping or travelling to remote locations like the Himalayas (yep, Transcend miniCPAPs have been there). They also double as a backup power source during power outages. There's even a solar battery charger, so you can get a comfortable night's sleep with the CPAP therapy you need anywhere the sun shines.

#### Quiet as a Whisper

At just 26.2 dBA\*, Transcend 3 is as quiet as a whisper (30 dB). Featuring unique air-bearing blower technology coupled with built-in sound and vibration dampening, Transcend 3 delivers a quiet, restful night of sleep.

### **Fall Asleep Comfortably and Easily with Adjustable Ramp Technology**

Transcend 3 miniCPAP's ramp technology helps you fall asleep more comfortably by delivering a lower pressure when you first turn on the device and go to bed and then gradually increasing pressure over time until you reach your desired level. Plus, it's adjustable, so you can fine-tune your ramp times or turn off the ramp feature altogether to ensure you're getting the restful sleep you deserve.

### **Breathe Easier with EZEX Pressure Relief**

EZEX Pressure Relief helps you breathe easier and more comfortably while you sleep by reducing pressure on exhalation.

### **Designed to Stay Clean and Dry, All the Time**

Transcend 3 miniCPAP includes a convenient 'drying mode' to remove excess moisture from your mask and tubing. When you wake up in the morning, simply activate the 30-minute drying cycle to start a steady stream of air moving through the hose and mask. Not only does the drying mode ensure you'll have a clean and dry mask waiting for you when it's time to go to bed, but it also reduces the chance of contaminant buildup which can negatively impact performance.

### **Free Accessories to Make Travelling Even Easier**

Get more with Transcend 3 miniCPAP. Every device purchase comes complete with a padded travel bag with secure compartments to protect your miniCPAP and accessories, plus a set of international power plugs to use around the world. This \$50 value is yours free with Transcend 3 miniCPAP.

### **Compliance Data at Your Fingertips**

Transcend 3's data management system stores your compliance data internally, so you can view or download a detailed report with Transcend's easy-to-use desktop software.

### **CPAP Industry's Best Warranty**

You can sleep well knowing that your Transcend 3 miniCPAP is backed by the industry's best warranty. In addition to an industry leading 3-year manufacturer's warranty, you also have the option to extend your warranty to 5 years with damage protection, giving you peace of mind and more peaceful nights of sleep. No other CPAP device offers this level of protection!

### **Try it Risk-Free for 30 (Restful) Nights**

If you don't love it, simply call within your trial period to send it back and receive a full refund. No risk, no questions asked, just a full 30 nights to try Transcend 3 miniCPAP, so go ahead and sleep on it.
